ASCE CHARITY GOLF TOURNAMENT

2009 Younger Member Employer Recognition Award

The 11th Annual ASCE Charity Golf Tournament took place on Monday, July 11 at Catta Verdera Country Club in Lincoln, CA. This year was the first time the tournament has been held at Catta Verdera, but likely not the last, based on the feedback from the sold out crowd. The golfers got to network on the golf course while contributing to a charitable cause.

The exact donation is still being determined, but we look to donate between \$14,000 and \$15,000 to the local chapter of the Make-A-Wish Foundation. One hundred percent of this money is used by the Foundation to grant wishes for children with serious, life-threatening illnesses. This donation goes to a very worthy cause that provides terminally ill children with a chance to realize one of their dreams.

We realize that the current economic climate is not conducive to charitable donations, and are grateful for every firm that rose to the challenge and sponsored a hole this year. It does not matter what the economic conditions are to a lot of these children, as their symptoms continue to persist. The donation for the Make-A-Wish Foundation is raised through hole sponsorships and additional donations made by local firms; as the golfers are given the opportunity to play at cost in this charity event. If your firm sponsored a hole this year, please give yourself a pat on the back for helping to make this charitable event a reality.

The tournament organizers, Brian Brown and Ashley Orsaba, would like to personally thank all of the donors and volunteers who contributed to the success of this year's tournament. We look forward to your support next year.
